offered from autumn
2009

AP DEGREE IN

COMPUTER SCIENCE

For you who want to work with system development and programming

The academy profession degree in computer science is a 2½- year job oriented course consisting of a combination of software and programme developing subjects of which programming is principal.

During the course you are challenged to combine knowledge of software construction, software

design, data bases, operative systems, IT security, network, organization and project control. Moreover you learn how to apply this knowledge to solve various IT problems at company level.

The course allows you to create your own profile through elective optional

subject and internship. Also it is possible for you to enter into extramural activities. The academy cooperates with schools world-wide and you may decide to spend a semester abroad - either as a company trainee and/or as a student at a partner academy.

CHALLENGE

A 2½-year study course with innumerable IT challenges.

INNOVATION

For you who want more, we offer an additional "talent" subject, innovation.

COMPUTER SCIENCE

STUDY FORM

The course consists of 5 terms each with a 6-month duration. There is a general part including mandatory subjects, a specialisation part, a internship and a main project per.

1-4 TERMS

Each of the first 3 parts offers 3 subjects. The entire course includes 4 areas:

- 1) The company
- 2) System development
- 3) Programming
- 4) Technical part

SPECIALIZATION - 4th TERM

Here you may customize your training course as you like. Apart from the specially studied subjects offered by the academy, you may decide to study at a partner academy abroad. We have partnership agreements in most parts of the world. Most recently, students from the academy have studied and worked as trainees in China, Malaysia, Slovenia, Poland, Canada, USA and Brazil.

INTERNSHIP - 5th TERM

You may enter into a internship agreement with a Danish or a foreign company with a view to practicing what you have learned.

CAREER

JOB OPPORTUNITIES

IT-consultant, system developer, programmer, IT designer, system consultant, network specialist etc.

Bachelor top-up

FURTHER EDUCATION

It is now possible to get a full bachelor degree at Business Academy South West. With an AP degree in Computer Science it is now possible to enroll the Bachelor programs in Software development and Web development. The programs are 1 ½ year and include an internship and a bachelor project.

USEFUL INFORMATION

TERM COMMENCEMENT
30st August 2010

APPLICATION

Through the coordinated enrollment system. Please consult: www.optagelse.dk - or apply directly to the academy. The application should be submitted to the academy not later than 5th July.

If you for some reason find that the academy should consider your application separately (dispensation etc.), you should apply as early as possible.

ENTRY REQUIREMENTS

You should hold:

An upper secondary examination certificate (A-levels, HTX (higher technical exam), HF (higher preparatory exam), HH (higher commercial exam) or something similar) including mathematics or business economy level B and English level B or you should have received relevant vocational education and training within, say IT.

If you hold a certificate from a foreign institution of education this will be considered separately.

ECONOMY

There is no tuition fee for students from EU countries and students from Iceland and Norway. Students from outside Europe must pay tuition fee. Please refer to our homepage for more information.

STUDY LIFE

STUDY ENVIRONMENT

Experience the study environment on our site, Talentzonen - Se & Hør. Here you may view pictures from our arrangements. You may also link to students at the academy for a chat - for example via Facebook.
